

Leashaw landslip update

Issue 10

25 October 2023

Severn Trent burst water main on the B5035 Crich Road: Emergency road closure

A Severn Trent burst water main on the B5035 Crich Road, between Whatstandwell and Crich, has severely damaged the road, forcing a temporary, emergency closure.

The road will need to be completely rebuilt by Severn Trent, once they have repaired their pipework, as the water has washed away the foundations, causing major subsidence. We are working with Severn Trent to confirm the likely timescales involved for the repairs to be done.

The photos below show the extent of the damage caused by the burst main.

The burst water main is on the existing Leashaw diversion route due to the landslip at Holloway village. Unfortunately the diversion route will take more time but the damage to the road is extensive and it must be closed for public safety.

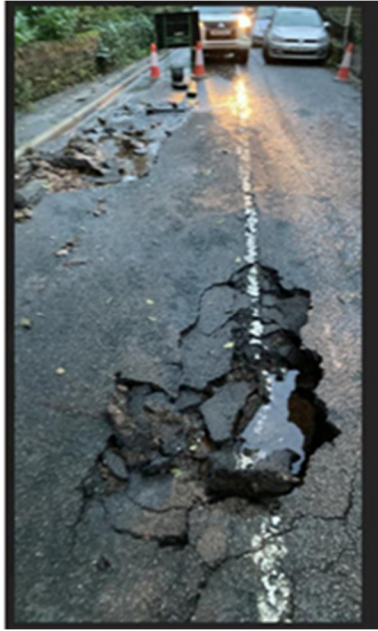

The diversion route for vehicles under 12'-9": please continue along the A6 to the A610, and then Bullbridge Hill back to Crich.

Vehicles over 12'-9": please use the A6 Derby Road / Matlock Road – A610 Ripley Road – A38 from Hartshay Interchange to Watchorn Island – A61 towards Chesterfield – St Augustines Road – Whitecotes Lane – A632 to Matlock – A615 towards Wessington – Birches Lane – High Road – B5035 to point of closure (and vice versa).

Please allow extra time for your journey. Severn Trent will put out diversion signs as soon as possible.

Full details about the repairs are available on One Network using this link:
